

## Erratum

### ERRATUM TO “Body water indices as markers of aging in male masters swimmers. *Journal of Sports Science and Medicine* (2005) 4, 406-414”<sup>1</sup>

Although Figure 1 of the above mentioned article is pictured correctly, the equation for the regression line has been erroneously reported ( $y = 33.967 - 0.442x$ ). It should be  $y = 33.967 - 0.1294x$ . Please find the corrected version of the Figure Legend together with the Figure below. We apologize for the mistake.

Georgianna Tuuri et al.

**Figure 1.** Intracellular water and age in male swimmers. The equation for the regression line is  $y = 33.967 - 0.1294x$ . The regression coefficient,  $r^2 = 0.20$  ( $p = 0.02$ ).
